

Starting on Monday October 19th there will no longer be meal deliveries.

All school cafeterias will be serving a grab & go breakfast and a lunch during the days when students are on site learning. The USDA has extended the waivers to offer **FREE** meals to children 18 years of age and under for the 2020-2021 school year.

Due to the food program we are offering, there will be no ala carte sales offered at any sites. This includes individual milk sales and second entrees. However, milk does come with breakfast and lunch. There will be water and cups available for students who bring lunches from home.

On the days students are not on site learning the Food Service Department will be offering 3-day meal kits. These kits will be distributed to students at the end of the day on their last day of onsite learning. Monday & Tuesday onsite students will get their kits on Tuesdays. Thursday & Friday onsite students will get their kits on Fridays. We will also be offering 5-day meal kits for the community and students who are 100% Virtual learning. These meals will be available for pick-up on Wednesdays from 7:30am-9:00am at Lakeside High School (staff parking lot).

All Meal kits will need to be ordered in advance using the links below
